Full-stack Developer
UI/UX Designer

Project Scope

End-to-end design, development, and deployment of a private alumni portal featuring member management, role-based access, a full election/voting system with countdown phases, attendance & payments tracking, news publishing, and an AI-powered Yoruba chatbot assistant with voice I/O.

Deliverables

Frontend

- Next.js 15 App Router — 29 routes
- Responsive mobile-first UI (Tailwind CSS)
- Premium design system: glass-morphism, staggered animations, brand palette (#054ea4 / #e7b801 / #d52419)
- Public homepage, auth-gated dashboard & admin panel
- 3-step voting flow with CSS confetti celebration
- ElectionCountdown with auto 3-phase timer
- Adunni chatbot — female Yoruba voice, Web Speech API, 18-intent knowledge base, GDPR/NDPR-compliant
- Mobile horizontal nav on admin & dashboard

Backend & Infrastructure

- SQLite → Neon (PostgreSQL) migration
- 15 async API routes with \$1-placeholder queries
- Auth system with sessions & role-based guards
- 42 alumni, 7 positions, 21 aspirants, 5 meetings, 9 news, 210 attendance & 252 payment records seeded
- Public results API with scope-based visibility
- Vercel serverless deployment (sjmusso07.vercel.app)
- GitHub version control

What Was Done

#	Item	Category	Status
1	Database migration: SQLite → Neon (PostgreSQL) with full async rewrite	Infrastructure	Done
2	Vercel deployment & environment configuration	Infrastructure	Done
3	Auth system — sessions, login, logout, role-based guards (super_admin / admin / user)	Backend	Done
4	42 alumni seeded with default password (Abc123), super admin password change cleared	Data	Done
5	Voting portal — 3-step flow (login → ballot → celebrate), password sjmusso-07, one vote per email	Feature	Done
6	21 aspirants across 7 positions seeded	Data	Done
7	ElectionCountdown — 3-phase component (countdown → voting → results)	Feature	Done

#	Item	Category	Status
8	Dashboard — premium cards, attendance/contributions views, pill-tab navigation	Frontend	Done
9	Admin panel — sticky sidebar, gradient stat cards, attendance & payments matrices, vote bars	Frontend	Done
10	Homepage — splash screen with bounceIn logo, typewriter motto (2.2s auto-dismiss)	Frontend	Done
11	Published election results section on homepage	Feature	Done
12	Adunni chatbot — floating button, voice I/O, en-NG locale, female Nigerian voice, emoji-free TTS, 18 intents, zero chat storage	Feature	Done
13	News management — create, edit (inline), delete with admin-only access	Feature	Done
14	Mobile navigation — horizontal scrollable tabs on admin & dashboard pages	UX	Done
15	Coordinator contact info on footer & contact page	Content	Done
16	UI polish — Impeccable audit fixes (removed bounce easing, gradient text, gray-on-color, violet tints)	UX	Done
17	Unicode fix — Yoruba text rendering across the platform	Bugfix	Done
18	AlumniTicker — names marquee for anonymous users (fixed public API)	Bugfix	Done
19	CSS-only confetti on vote celebration screen	Frontend	Done
20	Background alumni crest SVGs on all pages	Frontend	Done

Pricing

#	Work Package	Original Price (₦)	Discounted Price (₦)
1	Database architecture & migration (SQLite → Neon PostgreSQL)	80,000	30,000
2	Authentication system with role-based access (super_admin / admin / user)	60,000	22,000
3	Voting portal — 3-step flow, ballot UI, one-vote enforcement, election countdown	90,000	35,000
4	Admin panel — user management, attendance matrix, payments matrix, vote analytics, results publishing	70,000	27,000
5	Member dashboard — premium UI, attendance/contributions views, news feed	50,000	19,000
6	Homepage design — splash screen, typewriter motto, published results, news feed, meetings	40,000	15,000
7	Adunni chatbot — voice I/O, Yoruba identity, 18-intent knowledge base, privacy guardrails	60,000	25,000
8	News management system — create, inline edit, delete	30,000	12,000
9	Mobile responsiveness & navigation overhaul (admin sidebar, dashboard tabs, scroll indicators)	40,000	15,000
10	UI/UX audit & polish — anti-pattern fixes (animations, colors, contrast, typography)	30,000	12,000
11	Data seeding — 42 alumni, 21 aspirants, 7 positions, meetings, attendance, payments	25,000	10,000
12	Vercel deployment, environment configuration & domain setup	25,000	10,000
Total		₦600,000	₦232,000

Original Fee

~~₦600,000~~ (₦500,000 base + ₦100,000 chatbot)

₦232,000

You save ₦368,000 — 61% discount

Terms

Payment	Full payment of ₦100,000 upon project completion and deployment sign-off
Hosting	Vercel hosting — current free tier covered. Future upgrades to Pro (\$20/mo) at client's cost
Domain	Custom domain management by client (currently sjmusso07.vercel.app)
Support	30 days post-deployment bug fixes included. Feature additions billed separately
Maintenance	Optional monthly retainer — ₦25,000/mo for updates, backups & monitoring

Prepared for Saint John Mary's Unity Secondary School, Owo — 2007 Alumni Association.
